

## **2018 Outcome Summary Report**

All outcomes are based on the premise that all services focus on:

- Developing skills that lead to increased function
- Maintaining or increasing independence

This summary report is intended to document achievement of “indicators” for each of the program outcome areas. Each program establishes initial, intermediate, and long-term outcomes. Within each outcome, one to nine indicators or specific measures of success are established that confirm whether the outcome is actually achieved. Copies of the actual reports are available upon request.

### **Youth Services Outcomes**

Children and Youth with disabilities will learn new skills through participation in developmentally appropriate activities designed to develop skills.

Achieved 1 of 1 indicator

Children and Youth with disabilities will improve function by developing new strategies for interacting independently within their world.
